

The following documents relate specifically to the **Indian Springs HOA dam**, and redundant copies can be found in each year's "Key Documents" in the Members-Only page of the community's website. They are collated here for ease of retrieval.

The dam is inspected yearly by residents who have volunteered to receive the necessary training, and it is inspected every five years by a professional engineer. The [Department of Conservation and Recreation \(DCR\)](#) provides guidance and oversight for these dam-related activities. This sub-link gives access to the many guidance documents necessary for dam maintenance and reporting to DCR: <https://www.dcr.virginia.gov/dam-safety-and-floodplains/> .
